Resolution

Municipally owned roads need regular inspections for needed maintenance and repair. These inspections should be performed monthly, at minimum. Inspection will be visual.

The Public Works Employee will perform the inspections, report to the Clerk and where needed, will repair minor washouts, potholes, clear debris etc.

The Clerk will arrange for a general contractor to repair where heavy machinery is needed with Council approval except in the event of an emergency.

In the absence of a Public Works Employee, the Clerk will arrange for the inspections of municipal roads by using an outside source (preferably the company contracted for snow removal). The Clerk will also arrange for any repairs needed by contacting a general contractor.
